The use of Southeast Kentucky Community & Technical College computer technology is a privilege extended to all users, including faculty, staff, administrators, and students. Inappropriate or unacceptable use of this technology may result in loss of this privilege. College agents may monitor information on the college computer network or on individual computers or computer systems. Complaints of possible inappropriate or unacceptable use will be investigated. Complaints regarding violations of acceptable use policy should be addressed to the Director of Information Services (DIS). In investigating such complaints, the DIS will consult with appropriate college officials. The DIS will then inform the complainant of the results of the investigation and explain what action, if any, was taken following the investigation of a complaint.

Sanctions

In resolving complaints of unacceptable use, the college may invoke sanctions against the offender that range from verbal warnings to expulsion or dismissal, depending on the circumstances of each incident.

If faculty, computer systems administrators, or administrative staff, in the performance of their duties, discover, in their opinion, a flagrant violation of acceptable use policy, those persons have authority to immediately suspend the computing privileges of the offender pending a formal investigation by the DIS. The results of this investigation will be turned over to the Dean of Student Affairs for further action, if appropriate.

Appeals

Individuals who believe they have been treated unfairly may appeal through the appropriate appeals procedure set forth in college policy.
